

ALEX SHARABAYKO

SOFTWARE DEVELOPER

ABOUT

Hi there! My name is Alex I have been working as frontend developer since 2013 and I'm still passionate about my job. Usually participate in big-size long-term projects but also have experience small size ones. Familiar with mentoring of teammates and scrum-mastering.

I like to do different tasks from fixing bugs and create markup to start a project and create its architecture/structure or create universal "React-to-web" components which will work with different frameworks.

I also have experience in backend: I wrote middle-size servers using Laravel, Strapi, Express. I'm especially interested in full-stack positions. Except work I like various types of activities from cooking and reading to cycling or boxing. Not a big extreme guy and not a home guy.

You are also can look at my web resume: <https://alexsharabayko.github.io/>

Open both remote and in-office positions. Currently in Warsaw.

Nice to meet you!

WORK EXPERIENCE

LEAD FRONTEND DEVELOPER

IDT Corporation | May 2019 - Current

Working as a frontend tech lead and a scrum master on net2phone - a VOIP solution for small/medium size companies.

- Implementation of "micro-frontend"
- Started common UI library of components which can work with any framework
- Started projects from scratch
- Feature implementations
- Bug fixing
- Team mentoring
- Scrum mastering
- Working on non-standard tech task like SIP issues, WebRTC or addon for Google Calendar

FRONTEND / BACKEND DEVELOPER, CO-FOUNDER

Oh What App | Mar 2020 - Mar 2021

<https://play.google.com/store/apps/details?id=com.ohsmmmobile>

My friends and I were trying to create our own sophisticated app for SMM in Instagram. Minimal goal for me - learning a backend development.

- Participated in frontend development on React Native
- Created the server for this app using Strapi CMS
- Features / UX discussions

FRONTEND / BACKEND DEVELOPER, CO-FOUNDER

Healthgoing | Mar 2020 - Current

<https://healthgoing.com/>

My friends and I are trying to create solution to connect nutritionists with their customers.

- Started and participated in frontend development on Angular
- Created the server for this app using Laravel framework for PHP
- Features / UX discussions

SENIOR FRONTEND DEVELOPER

Exp Capital | Aug 2018 - May 2019

Participated in development of <https://capital.com/> and <https://currency.com/> as a senior frontend dev.

- Participated in frontend development with Angular and Ionic
- Bug fixing

WORK EXPERIENCE

MIDDLE / SENIOR FRONTEND DEVELOPER

Viaden Media / Skywind | Sept 2014 - Jul 2018

Started as a middle frontend developer. At first helped my team to develop <https://www.galabingo.com/> and <https://www.galacasino.com/> - fixed bugs, implementing new features on Backbone. Then participated in development of internal Backoffice using angular and started Electron app from scratch for our customers.

- Participated in frontend development using Backbone, Angular, React
- Bug fixing
- Started Electron / Angular desktop app from scratch
- Feature implementations
- Bug fixing
- Team mentoring

JUNIOR FRONTEND DEVELOPER

HiQo Solutions | Jul 2013 - Aug 2014

Starting point of my career. Was member of internship program then worked as junior engineer: fixed bugs, implemented small features for different projects, for example <https://www.hiqo-solutions.com>

- Participated in frontend development on vanilla JS, jQuery
- Bugs fixing
- Small features implementations

EDUCATION

BACHELOR DEGREE - MATH FACULTY

Belarusian State University | 2010 - 2015
