ALEX SHARABAYKO

SOFTWARE DEVELOPER

ABOUT

Hi there! My name is Alexander I have been working as a frontend developer since 2013 and I'm still passionate about my job. Usually I participate in big-size long-term projects but also I have experience with small ones. Familiar with mentoring and team leadership.

I'm able to take care of establishing a project or a set of projects, its architecture and moving it in needed direction. I also don't mind working on more usual tasks like bug fixing, creating markups, etc.

I also have enough personal and communication skills to understand what and how we need to implement to achieve best user experience and meet business goals.

I have experience in backend as well: I've implemented middle-size servers using Laravel, Strapi. It would be nice to work with BE too.

Except work I like various types of activities like cooking, reading, cycling or boxing. Not a big extreme guy but not a home guy.

You are also can look at my web resume: <https://alexsharabayko.github.io/>

I'm open for both remote and in-office positions. Currently in Warsaw.

Nice to meet you!

WORK EXPERIENCE

LEAD FRONTEND DEVELOPER

IDT Corporation | May 2019 - Current

Tech stack: Angular, React, Web Components, Jenkins, Docker, Sip JS, HTML/SCSS, WebRTC, Redux, Rx JS. Webpack, Node JS

Working as a frontend tech lead and a scrum master on net2phone - a VOIP solution for small/medium size companies.

- Implementation of "micro-frontend" architecture in the product
- Developed common UI library of components which can work with any framework
- Started projects from scratch
- Feature implementations
- Bug fixing
- Team mentoring and leadership
- Scrum mastering
- Working on non-standard tech task like SIP issues, WebRTC or add-on for Google Calendar
- Requirements clarification and documentation

FRONTEND / BACKEND DEVELOPER, CO-FOUNDER

Oh What App | Mar 2020 - Mar 2021

Tech stack: React Native, Strapi, Node JS, Postgres, Firebase

<https://play.google.com/store/apps/details?id=com.ohsmmmmobile>

My friends and I were trying to create our own sophisticated app for SMM in Instagram. Minimal goal for me - learning a backend development.

- Participated in frontend development on React Native
- Created the server for this app using Strapi CMS
- Features / UX discussions

FRONTEND / BACKEND DEVELOPER, CO-FOUNDER

Healthgoing | Mar 2020 - Sep 2021

Tech stack: Angular, RxJS, HTML/Tailwind, Laravel, Stripe, WebRTC, Web sockets, Node JS

<https://healthgoing.com/>

My friends and I are trying to create solution to connect nutritionists with their customers.

- Started and participated in frontend development on Angular
- Created the server for this app using Laravel framework for PHP
- Features / UX discussions

SENIOR FRONTEND DEVELOPER

Exp Capital | Aug 2018 - May 2019

Tech stack: Angular, Ionic

Participated in development of <https://capital.com/> and <https://currency.com/> as a senior frontend dev.

- Participated in frontend development with Angular and Ionic
- Bug fixing

WORK EXPERIENCE

MIDDLE / SENIOR FRONTEND DEVELOPER

Viaden Media / Skywind | Sept 2014 - Jul 2018

Tech stack: Angular, React JS, HTML/CSS/SASS, Angular, Node JS, Electron, Backbone JS, jQuery,

Started as a middle frontend developer. At first helped my team to develop <https://www.galabingo.com/> and <https://www.galacasino.com/> - fixed bugs, implementing new features on Backbone.

Then participated in development of internal Backoffice using angular and started Electron app from scratch for our customers.

- Participated in frontend development using Backbone, Angular, React
- Bug fixing
- Started Electron / Angular desktop app from scratch
- Feature implementations
- Bug fixing
- Team mentoring

JUNIOR FRONTEND DEVELOPER

HiQo Solutions | Jul 2013 - Aug 2014

Tech stack: JS, HTML/CSS, jQuery, Backbone

Starting point of my career. Was member of internship program then worked as junior engineer: fixed bugs, implemented small features for different projects, for example <https://www.hiqo-solutions.com>

- Participated in frontend development on vanilla JS, jQuery
- Bugs fixing
- Small features implementations
